MR. HAROLD WEISBERG,

FREDERICK, MARYLAND 21701

Dear Mr. Weisberg,

I recently read a "Saturday Evening Post" article that mentioned you had published "Whitewash IV" this year. I have looked in Calgary here but can't find a copy of it and wondered if I could order it from you. I have copies of your first two "Whitewash" books and several others by other authors on the J.F.K. assassination and am one of those who has always believed there was a conspiracy. I notice from the newspaper accounts that the day may still come when we will learn the full truth of that tragic event.

I am wondering if you have done any research into the Robert Kennedy assassination. I am not familiar with those who have been and in view of your extensive work in connection with the former president's death, I wonder if I could pass on the following information to you. It probably has no significance but after thinking about it I felt I should. You don't as such and of course I have no background in this sort of investigative work so can not really judge.

This concerns correspondence which I had with "World Field Research" in April & May of 1968. I had answered an add. in a magazine (I don't remember the name) which suggested one could earn money at home doing research

work for this firm: Their address was:

World Field Research, incorporated,
The Research Building,
Main Street, Mineola, N.Y. 11501

They requested a $5.00 registration fee to "defray processing costs" and this was sent to them on April 13, 1968 and I recall receiving a "Political Opinion Survey" shortly after this. I did not make a copy of this survey, but basically it requested my opinion on the popularity of Robert Kennedy and several other questions concerning his possibility of becoming president. I completed the survey and sent it in to World Field Research. I never had any more correspondence from them in any form. I of course received no payment for this "research" either. This all seemed to me just a "con-artist" at work picking up $5.00 a head until the news of Robert Kennedys' assassination. Perhaps it has nothing at all to do with his death but I thought if you had been investigating it then you might find it of some use. If not, well I'm sorry to have troubled you, but I know there are many people here in Canada who were sure just as grieved as Americans over the Kennedys' deaths. I am enclosing some of the brochures from World Field Research which I have kept.

All the best to you in your endeavours.

Yours sincerely,
